

STATE OF WASHINGTON  
DEPARTMENT OF ECOLOGY

Northwest Regional Office, 3190 - 160th Ave S.E. • Bellevue, Washington 98008-5452 • (206) 649-7000

July 27, 1992

Mr. Gerald J. Brown  
Safety & Environmental Manager  
Ash Grove Cement Company  
3801 East Marginal Way, South  
Seattle, WA 98134

Dear Mr. Brown:

Re: State Waste Discharge Permit No. 5162; Ash Grove Cement Company

This Department has received information that you are no longer using the settling pond for storm water containment and it has been replaced with a system permitted with METRO. In view of the foregoing, your state waste discharge permit No. 5162 is canceled.

Should you anticipate a discharge of wastewater from this source into waters of the state, you are required to submit an application for a waste discharge permit to the Department of Ecology at least 60 days prior to the anticipated discharge.

The discharge of the treated process wastewater to the METRO sewer system will continue to be regulated by the City of Seattle Pretreatment Program. Your facility may also be required to apply for a storm water permit under the provisions of 40 CFR 122.26(b)(14).

If you have any questions regarding this cancellation letter, please telephone Gerald Shervey at (206) 649-7215 at our Northwest Regional Office.

Sincerely,

*for*   
John H. Glynn  
Water Quality Supervisor  
Northwest Regional Office
